INTRODUCTION

Dear Competitor,

It is with great pleasure I present to you the regulations for the Munster Car Club Cork "20" International Rally 2010, round 6 of the 2010 Citroen Irish Tarmac Rally Championship, which takes place on the 2nd – 3rd October next . This year we are delighted to welcome on board our new associate sponsors, Orchard Motorsport & The Silver Springs Moran Hotel which will be returning as Rally HQ for this years event.

The Cork "20" is one of the oldest rally's in Europe, with this being the 95th year of its successful running. We have endeavoured to select a very competitive and testing route on this years event including a number of old and "classic" Cork '20' stages, keeping the tradition of this event which dates back to 1911 when the Cork '20' was a 20 hour trial, (Hence the name Cork 20). There will be a centralised service area on both days of the rally.

Once again the Cork "20" will be the final round of the Citroen Irish Tarmac Rally Championship and 50% bonus points will be awarded. It is also a counting round of the Historic Tarmac Rally Championship, Fiesta Sporting Trophy, Citroen Trophy and the Southern 4 Rally Championship.

I would like on behalf of the Munster Car Club to thank all of our associated sponsors, without their assistance & financial support it would not be possible to run this event, in particular the Silversprings Moran Hotel as Rally HQ & associate sponsor and Orchard Motorsport as associate sponsor. I would also like to thank our own hard working committee, Cork County Council , The residents & land owners on the route, the Gardai, Ordinance Survey Ireland & the media.

Munster Car Club invites you to the official press launch of the 2010 Cork '20' International Rally in the Silver Springs Moran Hotel (Rally HQ) Cork at 8pm on Friday 27th August.

Looking forward to meeting you at the Rally HQ, Silver Springs Moran Hotel on the 2nd and 3rd October for a competitive & enjoyable weekend of motor sport in County Cork.

- (d) Have a time recorded at special stage finish control.

Contravening any of the above will be penalised as in Article 19.7 e.

19.10 No case of Force Majeure or baulking will be taken into consideration after a competitor's scheduled time from the start control. Nevertheless, the promoters have the right to penalise any competitor deemed to have unreasonably delayed another competitor.

Any competitor whose car blocks the passage of other competitors will be assumed to be acting against the interests of the sport unless the contrary can be proven to the satisfaction of the promoters. Such competitors, if any, may be excluded from the event.

19.11 Interruption of a Timed Stage

(a) When a Special Stage has to be stopped for any reason whatsoever before the last crew has covered it, a classification for the Stage may however be established by allocating to each crew, which has been unable to complete the stage because of the interruption, the time of the last competitor to complete the stage before the interruption. This classification may be drawn up by the Clerk of the Course even if only one crew has been able to cover the stage in normal competitive conditions.

Should the Clerk of the Course consider the time set by the last competitor to complete the stage as abnormal, he / she may choose as the scratch time the one among the four previous competitors to complete the stage which seems to be the most suitable.

However, no crew which is totally or partially responsible for stopping a stage may benefit from this measure. It will be given the time, which it might have eventually set if this is greater than the scratch time awarded to the other crews. Following consultation with the safety officer, a stage may be restarted and the stage interrupted time will only be applied to those crews affected by the stoppage. Crews completing the stage after it has been restarted will be credited with their actual time. If 10 minutes has elapsed since the start time of the last competing car which started the stage, the stage may only be restarted in the following specific circumstances:

A stage may be restarted up to 16 minutes after the start time of the last competing car, provided that a 00 car is available at the stage start and has entered the stage no more than 11 minutes after the start time of the last competing car and the 00 car has passed the second radio point before the next competing car starts the stage. This re start procedure will be under the control of the CoC and the Radio Controller. A report (to include start and finish times together with times 00 reached the second radio point) for all re starts involving 00's must be submitted to the appointed MI Stewards of the event.

(b) If, because of a stage blockage, no car receives a competitive time for that stage, the offending competitor will receive their actual time while the balance of competitors will receive the stage minimum time.

(c) The point of interruption will be defined as the time at which an incident takes place. The stage interruption time will apply to ALL competitors who start the stage after the competitor who causes the interruption and prior to the stage restart.

ARTICLE 20 - PARC FERME

20.1 The cars shall be subject to the 'Parc Ferme' rules:

- (a) Following completion of scrutiny from the moment they enter the starting area, regrouping zone or an end of leg, until they leave one of these (Art. 18.3).
- (b) From the moment they enter a control area until they leave it (Art. 16.3).
- (c) From as soon as they reach the end of the event until the time for lodging protests has expired (Art. 24).

Competing cars must remain in Parc Ferme at the conclusion of the event for a period of 30 minutes after their recorded time at Parc Ferme In control.

20.2 While the vehicles are subject to the 'Parc Ferme' rules, any repairs or refuelling is strictly forbidden, under pain of exclusion.

- (a) However, if the scrutineers note that a vehicle seems to be in a condition which is not compatible with normal road use, they must immediately inform the Clerk of the Course thereof who may request that the car be repaired.
- (b) The minutes used for such repairs may be considered as the same number of minutes lateness registered on a road section. They may therefore be taken into consideration for the calculation of the exclusion. After repairs have been carried out, the crew shall possibly be given a new starting time (Art. 26, General Conditions).
- (c) In no case may the time used for the repairs exceed the allowed time before a car is penalised by exclusion. If this time is exceeded exclusion shall be announced.

20.3 By way of exception and under the supervision of the competent Marshal the crew may, while in the Parc Ferme, at the start, regrouping zone or end of leg (Art. 20.1a):

- (a) change a punctured or damaged tyre using the equipment on board;
- (b) have a new windscreen fitted with the possibility of having outside help. These repairs must be completed before the starting time; otherwise a penalty shall be imposed in accordance with the provisions laid out under Art. 17.5.

20.4 As soon as they park their car in the Parc Ferme the drivers will leave the Parc Ferme and no member of the crew will be allowed to re-enter it.

20.5 To leave a Parc Ferme for the start, regrouping halt or end of leg (Art. 20.1.a) the crew shall be allowed to enter the Park Ferme 10 minutes before its starting time.

20.6 If a crew is unable to present its car with the engine running:

- (a) at the exit of the starting areas, regrouping points or end of leg, a thirty second penalty shall be imposed. This penalty shall not count towards exclusion.
- (b) at the start of Special Stages, it will be excluded from the event.

20.7 Any infringements of the Parc Ferme regulations shall result in exclusion from the event.

SECTION 6 - SCRUTINEERING - PENALTIES

ARTICLE 21 - SCRUTINEERING AND SAFETY REQUIREMENTS

- (b) This will be followed with an identification of the crew both of whom will have to sign a starters' sheet. They must produce photographs of themselves as specified in Art 10.5 (1 set of photographs approx. 2"x2")
- (c) Identification marks may be affixed to any part of the competing cars before or during the event. The Stewards may at any time during the rally check these marks. A missing identification mark will result in exclusion. Altering, retouching or in any way interfering with identification marks will result in exclusion. Any competitor who in any way assists in the above will also be excluded. This will not prejudice the fact that the N.S.A. to which the competitor or his accomplice belongs may inflict further penalties. The onus is on the competitor to see that identification marks affixed to his car are in position at the finish.
- (d) A current F.I.A. Form of Recognition must be produced at scrutineering. Forms may be shared by drivers driving the same type of car. Failure to produce these documents shall result in the car being reclassified.

All cars must be individually licenced for the road - competing cars cannot be driven on any form of Trade Plate.

(d) An entrant is deemed to have full knowledge of his/her car and to vouch for its eligibility by the act of presenting the car for scrutineering before the start.

(e) No car will be allowed to start unless it complies with all F.I.A. regulations on safety.

(f) Following scrutineering a list will be posted on the official notice board at Rally H.Q. of known non-starters and cars that have been re-classified.

(g) Any car found during the event, not to be in compliance with F.I.A. safety regulations may be excluded.

Please note – attendance at Documentation to be within 45mins of Mechanical Scrutiny.

ARTICLE 22 - FINAL CONTROL

22.1 After the finish, all cars must be driven to Parc Ferme, where a check will take place to find out if the car is the same as that presented at scrutineering as provided for in Article 21, and also to ascertain if penalties should be imposed as in Article 23. All cars will be held in Parc Ferme at the conclusion of the event until 30 minutes after the recorded time of the competitor at the final control, extended if necessary in the event of official delay. also be carried out on cars finishing in the first three places in the overall classification. Cars placed first in classes or any other award may also be scrutineered at the discretion of the organisers and/or the Stewards of the Meeting, on the advice of the Clerk of the Course, or following protest.

22.4 When it is deemed necessary to have a car dismantled, all expenses must be borne by the entrant of the car in question. However, if the dismantling is the result of a protest, all fees and expenses will be according to Article 25.
